

MATHEMATICS

Max Marks: 20

TIME: 1hr

Instructions:

- All questions are compulsory.
- Answer all sections in the given sequence.
- Show all necessary working for calculations.

Section A:

Multiple Choice (1 marks each, 4 marks total)

Q.1 Write each of the following as decimals

(a) $30 + 6 + \frac{2}{10}$ (b) $600 + 2 + \frac{8}{10}$

Q.2 Oranges are to be transferred from larger boxes into smaller boxes.

When a large box is emptied, the oranges from it fill two smaller boxes and still 10 oranges remain outside. If the number of oranges in a small box are taken to be x , what is the number of oranges in the larger box?

Q.3 Express the following as cm using decimals.

(a) 30 mm

(b) 4 cm 2 mm

Q.4 Write as fractions in lowest terms

(a) 0.04

(b) 0.342

Section B:
Short Answer (2 marks each, 16 marks total)

Q.1 Solve :

(a) The teacher distributes 5 pencils per student. Can you tell how many pencils are needed, given the number of students? (Use s for the number of students.)

(b) Mother has made laddus. She gives some laddus to guests and family members; still 5 laddus remain. If the number of laddus mother gave away is l , how many laddus did she make?

Q.2 Ekta is asked to collect data for size of shoes of students in her Class VI. Her finding are recorded in the manner shown below :

5	4	7	5	6	7	6	5	6	6	5
4	5	6	8	7	4	6	5	6	4	6
5	7	6	7	5	7	6	4	8	7	

(a) the size of shoes worn by the maximum number of students

(b) the size of shoes worn by the minimum number of students

Q.3 The colours of fridges preferred by people living in a locality are shown by the following pictograph :

Colours	Number of people	 - 10 People
Blue	    	
Green	  	
Red	     	
White	 	

- (a) Find the number of people preferring blue colour
(b) How many people liked red colour?

Q.4 . Give expressions for the following cases :

- (a) y is multiplied by -8 and then 5 is added to the result
(b) 5 times y to which 3 is added
(c) 7 subtracted from $-m$
(d) 7 subtracted from p

Q.5 Write the Expression

- (a) A rectangular box has height h cm. Its length is 5 times the height and breadth is 10 cm less than the length. Express the length and the breadth of the box in terms of the height.
- (b) A bus travels at v km per hour. It is going from Daspur to Beespur. After the bus has travelled 5 hours, Beespur is still 20 km away. What is the distance from Daspur to Beespur? Express it using v

Q.6 A survey was carried out on 30 students of class VI in a school. Data about the different modes of transport used by them to travel to school was displayed as pictograph.

Modes of travelling	Number of students	 - 1 Student
Private car	   	
Public bus	    	
School bus	          	
Cycle	  	
Walking	      	

- The number of students coming by private car is 4.
- Maximum number of students use the school bus. This is the most popular way.
- Cycle is used by only three students.
- The number of students using the other modes can be similarly found

Q.7 Solve :

- Rahul bought 4 kg 90 g of apples, 2 kg 60 g of grapes and 5 kg 300 g of mangoes. Find the total weight of all the fruits he bought.
- Nasreen bought 3 m 20 cm cloth for her shirt and 2 m 5 cm cloth for her trouser. Find the total length of cloth bought by her.

Q.8 Solve the following :

- Subtract 202.54 m from 250 m
- Add $27.076 + 0.55 + 0.004$
- Urmila's school is at a distance of 5 km 350 m from her house. She travels 1 km 70 m on foot and the rest by bus. How much distance does she travel by bus?
